Subject: RE: Letter concerning the proposed Coal mine in Alton, UT

Dear Mr. Haddock, Is there something you can do about this incredible invasion of our southern Utah beauty? Will we sell the most exquisite part of the USA to a coal mine: will we pollute our precious air, and fill the highways with trucks? who will pay the bill to maintain the highways? Higher taxes? Please, my dear sir, can you help negotiate a better way!!!!
Sincerely, one of your tax-payers, Mrs. Winifred Washburn, Cedar City:

P.S. Selling coal to China is an abomination!!!!!!!!!!!!!!!!!!!!!!

Dear friends who love the peace and quiet of our area here in Southern Utah:
Please send this to any and all concerned parties.
Thank you for the people of Garfield County and especially the residents of Alton, Hatch and Panguitch who would see large coal trucks on their HY 89 24 x 7 every five minutes if this is allowed to happen. Not to mention the incumbent pollution.
The trucks will then travel on HY 20 to I - 15 to a northern turn off in Cedar City and thence to rail cars.

Interestingly enough the coal mine located west of Cedar City has recently been sold to a Chinese company who has leased it to an American company to run and ALL that coal will go to China!!!

Thank you again for taking the time to respond as you fell led.
Sincerely,
Harriet Priska

Please write your concerns to daronhaddock@utah.gov

In re: C/025/0005

The concerned residents of Panguitch are requesting an "informal conference"
